

This course is an introduction to statistics for economics majors.

Course Website

To be announced

My Office Hours

Mondays and Fridays 1-2pm, 531 Saunders Hall

Course Materials

Required textbook: Mario F. Triola, *Elementary Statistics*, 3rd Edition, 2007.

Requirements and Grades

Final class grades will be based on the following:

Quizzes	20%
Problem Sets	20%
Midterm	20%
Final Exam	40%

There are no makeup quizzes. Students are strongly encouraged to attend and participate in class discussions. The final will be held according to the University's final exam schedule. There are NO MAKEUP EXAMS so it is essential that you be able to attend these dates. If you require any disability-related special accommodations for exams, please speak to me the first week of class so that we can make appropriate arrangements.

Lecture Schedule and Problem Sets

A complete reading schedule will be passed out the first week of instruction. The lecture schedule will roughly follow the order of topics followed in the Triola textbook.

Final Exam

The final exam questions will follow the format of the quiz questions. The exam will be used to test knowledge of the material presented in lectures and in the textbook.
