COURSE DESCRIPTION: This course examines how resources are allocated through market and non-market mechanisms. We provide students with economic concepts and models and show how to use them to analyze real-world questions. Topics include: supply and demand analysis; theory of consumer demand; theory of the firm including production and costs, perfect competition, monopoly, monopolistic competition and oligopoly; and public policy analysis of various issues including, but not limited to, excise taxation, externalities and market structure. The analytical skills required for successful completion of this course are high school mathematics.

Our goals for students in this course include, but are not limited to:

- Achieving basic economic literacy, i.e., each student is able to clearly explain core microeconomic terms, concepts and theories;
- Fostering critical thinking by demonstrating the ability to apply microeconomic reasoning to contemporary social issues and policy problems;
- Applying quantitative reasoning using appropriate equations and graphs to illustrate theoretical and policy problems;
• Achieving a critical understanding of international trade and competition.
• And learning how to use social networking tools effectively.

PREREQUISITES: High school mathematics. No calculus required.

REQUIREMENT: Bring to class a twitter-enabled devise that you can use to send questions and comments on the lecture and videos. Asking and responding to twitter questions is 5 percent of your course grade.

GRADE DETERMINATION

Letter grades are assigned using the University of Hawaii plus/minus grading system. I do not assign grades of D-, D+, or C-. Grades assigned may include: F, D, C, C+, B-, B, B+, A-, A, and A+.

INFORMATION ABOUT THE THREE EXAMINATIONS

All examinations will consist of multiple choice questions and short essay questions. Examinations are closed-note, closed-book. No caps, dictionaries, hats, cell phones, ipods, backpacks, or calculators. Come with #2 pencils and official UH picture ID.

The final examination is cumulative, with extra emphasis on topics covered since the second midterm. Midterm examinations are not cumulative but questions may require application of material learned earlier in the course.

Attendance at all examinations is mandatory. No make-up examinations will be offered except for University-sanctioned excuses. If you do miss an examination, be sure to e-mail the instructor and explain why you missed the examination. Students with an unexcused absence will receive zero (0) points and a “F” letter grade on that examination. Students who miss any of the above scheduled examinations are advised to withdraw from the course at their earliest opportunity. If a make-up examination is warranted, its
format may differ from the examination administered in class and will be administered at the convenience of the instructor and teaching assistant.

All exam review sessions are optional.

Review Session for Midterm One: TBA.
Midterm One: Monday, February 14 in class.
Review Session for Midterm Two: TBA.
Midterm Two: Friday, March 18 in class.
Last Econ 130 Class: Wednesday, May 4
Review for Final Exam: Thursday, May 5, time and room TBA
Final Exam: Monday, May 9 from 9:45–11:45 am in our usual classroom.

Check out http://mankiw.swlearning.com for materials that can help you study for all three exams. Check out the tutorial quizzes, the flash cards, and the key term reviews!!

CLASS ATTENDANCE

Class attendance is required. Students unable to attend ALL course lectures as scheduled should withdraw immediately. Attendance will be measured through a sign-in system. Students unable to attend the entire lecture should not sign-in. Because attendance will count toward course credit, abuse of the sign-in system will be treated as academic dishonesty. All violators will be reported to the UH administration for review. Students can miss FOUR classes without penalty. Each subsequent class missed results in a 1% loss in the maximum 15% of the grade that can be earned from class attendance. Attendance will not be taken at the first three classes (January 10, 12, and 14).
