SYLLABUS
ECON 130
MICROECONOMIC PRINCIPLES
SUMMER I 2007

Instructor: Gary S. Kikuchi
Office: 508 Saunders. Phone: 956 7840
Office Hours: By appt.
Email: gkikuchi@hawaii.edu

Required and Recommended Texts: The packaged version of Foundations of Microeconomics 3rd Edition by Bade/Parkin. The package should include the textbook, study guide, CourseCompass and a software program called MyEconLab, which we will use for homework.

Course Description: Economics is the study of the use of scarce resources to satisfy unlimited human wants. In Microeconomics, we study how these scarce resources are allocated within the market (or price) system. Within this system, we consider the actions and the interactions of three economic agents: 1) the consumers, 2) the firms and 3) the government. In this course, students will be introduced to simple, abstract models of behavior of the three economics agents. Using these models, we will analyze the outcomes when these agents interact in the marketplace. Later in the semester, we will relax some of the restrictive assumptions of the idealized models and develop models that reflect the real world better. Mathematical skills beyond simple algebra and graphical analysis are not required in this course. This course meets the diversification requirement (DS) of Gen Ed requirements for social sciences.

Objectives: By the end of the semester, students are expected to learn the following: 1) the language of Microeconomics, 2) the basic methodology and models used in this area and their application to real-world situations, and 3) by using these models, the ability to analyze hypothetical and/or real-world situations that occur in the international economy.

Exams and Grading Policy: There will be 9 quizzes, one midterm, and a final exam for this course. The following grades are possible for this course: A, A-, B+, B, B-, C+, C, C-, D, D+. I will also give an A+ if someone gets 100% for the final grade. Your final grade will be calculated in the following manner:

Homework: There will be weekly homework using MyEconLab. The total scores on the homework will count for 10% of your final grade. Homework problems are assigned every Friday due the following Friday. If you do not complete it by the assigned date, you will not be able to access those problems and will receive a grade of zero on that homework. There will be no makeup for any reason.

Quizzes: Nine unannounced quizzes will be given in class during the semester. Each quiz will be about 5-10 minutes in length and will not be very hard. The top five scores will be taken and will count for 10% of your grade. These quizzes are designed to reward those who regularly attend class and do their work. Therefore, no make-up quiz will be given under any circumstance. Any missed quiz will be given a grade of zero. Plan accordingly.

Midterms and Final: Since I do not want to penalize you for doing badly on any one midterm, I will calculate your exam grade using two different ways and take the better grade of the two. Method One: Midterm will be 35% and final will 45% of your grade. Method Two: If the final exam is higher than the midterm, only the final will count for 80% of your grade. I will take whichever of the two that will give you a higher grade as your final grade.

Rules and Regulations: Make-up Exams: As stated before, no make-up quiz will be given for any reason. Please note ahead the scheduled dates of the midterm and the final and make sure you can attend the exams. Unless you have a very good reason for missing the exams, no make-up exam will be given. The only acceptable reason for missing an exam is your own illness or other crucial emergencies. If this applies, please make a xeroxed copy of the "Report of Absence from Exam" form attached at the end of this syllabus and fill it in and return it to me. You must also have a signed excuse from your physician in case of illness stating the nature of your illness (a statement saying that you weren't feeling too well is NOT enough). Your petition will be considered, and I will get back to you. If I accept your petition, a make-up exam will be administered. Please note that the make-up exam will be entirely different from the original
exam. As stated before, no make-up quiz will be given for any reason. Please note ahead the scheduled
dates of the midterm and the final and make sure you can attend the exams. Unless you have a very good
reason for missing the exams, no make-up exam will be given. The only acceptable reason for missing an
exam is your own illness or other crucial emergencies. If this applies, please make a xeroxed copy of the
"Report of Absence from Exam" form attached at the end of this syllabus and fill it in and return it to me.
You must also have a signed excuse from your physician in case of illness stating the nature of your illness
(a statement saying that you weren't feeling too well is NOT enough). Your petition will be considered,
but you must submit it as soon as you are back on campus. Any delays will lead to your petition being
turned down. If I accept your petition, a make-up exam will be administered. Please note that the make-up
exam may be entirely different from the original exam. If you need to take the exam early or elsewhere,
you must submit the petition by the deadline given in class. If you miss the deadline, you will be assessed a
10% penalty. It is your responsibility to take note of the deadline. NOTE: "I/my parents/relatives
bought a plane ticket before the date of the final is NOT a valid excuse" unless you bought the ticket
before you registered for this class. You know the date of the final so don't buy the ticket for plane that
flies out before the final!! Please bring pencils, erasers and a calculator to the exam, as we will be using
a scantron sheet for parts of the exam. The machine will only read pencils, no pens! Failure to follow
procedures will result in a penalty on your grade, so please listen to all instructions.

Grade Appeals: Grades will only be changed if there is a mistake in grading on my part. If you believe
there is such a mistake, please write a short report detailing where and why you believe there is an error in
grading and turn in the report to me.

Attendance: While attendance is not mandatory, your grades will suffer if you miss the quizzes. Some
topics not covered in the textbook will be introduced in lectures and you will be held responsible for them
on exams. Moreover, experience tells me that students who miss class regularly do not perform well on
exams. Lastly, students are responsible for being aware of any and all announcements that are made in
class.

Academic Honesty: Simply put, cheating will not be tolerated. Any student caught cheating on any quiz,
midterm or final will be given a grade of zero for that exam, and will be reported to the University for any
other disciplinary action.

Some Suggestions: Please try to do all your readings as scheduled. I understand that this is not always
possible for a variety of reasons, but falling too far behind in the readings is not a very good practice. In
this class, each new section will build upon the concepts learned in the earlier sections, and you will not be
able to understand the current lectures unless you understood the previous lectures.
You must take notes in class to succeed in this class. You are also encouraged to form study groups and go
over the lectures, homework, notes, etc. The only time you are not allowed to cooperate is on exams.
Otherwise, you should try to exchange ideas with your fellow students.

I am open to suggestions. If you have any complaint about the way the lectures are organized, please tell
me. I will do my best to accommodate your suggestions. Participation in class is encouraged. If you have
any questions, feel free to ask me. Sometimes, you may feel unsure about asking a question. Here's my
opinion on that--in the majority of cases, if you feel unsure about a topic, most of the other students feel the
same way and someone has to convey this feeling to me. I can't read minds, so you must take the initiative
to let me know when you are confused. Remember, even if your question isn't the smartest one ever asked,
least you will know the right answer by asking the question. If you don't ask the question and take the
doubt with you at exam time, that could hurt you. And, by all means, make use of the office hours that I
have posted. You are paying for this class, and you should therefore make use of all available help. Under
no circumstance should you stay confused. As I have stated before, each concept in this class builds on the
previous concepts, so if you are confused, it won't get better later on unless you resolve your problems as
soon as possible.

Disability: If you have a disability and need special consideration, please contact me to discuss your
needs.

Website: We will use MyEconLab and CourseCompass as our website and post relevant information such
as homework, answer keys and grades at the site. Without those software programs, you will not be able to
submit homework, see your grades or see any of the course announcements.
### SCHEDULE

Note: A=appendix, e.g. 1A means you should read the appendix to chapter 1, too.

READ CAREFULLY AND SIGN

I pledge that all the information contained on this form is true to my best knowledge. I understand it is my responsibility to take this form to my professor as soon as possible. If accepted, it is also my responsibility to set up a date for a make-up exam with my professor before the semester is over. I understand that failure to complete any of the above will make me ineligible for a make-up exam.
