Course Description

Tourism is one of the fastest growing industries in the world. It is Hawaii’s largest industry. This course examines tourism from an economic perspective. Topics include the determinants of consumer demand for leisure travel; structure of competition among suppliers of tourism services; benefits and costs of tourism development to the host community; government’s role in the taxation, subsidy, regulation and protection of the tourism industry; tourism’s impact on the environment; and sustainable tourism development. The course uses extensive examples from Hawaii and the Asia-Pacific region.

Course requirements: In addition to your weekly reading assignments, there will be frequent homework assignments requiring your analysis of economic issues related to the tourism industry. Each student is also expected to submit one short research paper (about 6 pages long plus endnotes and references); we may all work
on a common topic (that’s yet to be decided) but each student is expected to submit his/her own paper. A mid-term (essay variety) and a final exam (essay variety) comprise the other requirements of the course. I do not accept late homework assignments or research papers. All assignments are due at the beginning of class.

Grading: Homework assignments, research paper, mid-term exam and final exam will each comprise 25% of your semester grade. Grades will be adjusted based on attendance, which will be taken daily. You can withdraw online without a “W” grade on your transcript until January 20.

Final Exam Date: May 12, 2005 at 12 noon (in your regular classroom). Make sure that your travel arrangements enable you to take the final exam at this scheduled time as NO EXCEPTIONS will be granted.
